

Harrisburg University of Science & Technology

Program Director/Faculty E-Business

Exceptional Talent. Total Confidence.®

www.Arcus.net

Harrisburg University offers an applied science and technology education for students who want a degree and a dedicated pathway to a career.

Its focus is to educate career-minded individuals in the areas of science, technology, engineering and math (STEM careers), giving them the tools to succeed, while helping to shape their communities, locally and beyond. Their goal is to help stimulate economic growth in our region by establishing a STEM educated workforce — a necessary resource in today's economy.

Mission:

The Harrisburg University of Science and Technology is an independent educational institution offering academic and research programs in mathematics, science and technology designed to meet the needs of the region's youth, workforce, and businesses, and to expand, attract, and create economic opportunities in the region.

- American Council on Education (ACE)
- Association of Independent Colleges and Universities of Pennsylvania (AICUP)
- Coalition of Urban and Metropolitan Universities (CUMU)
- National Science Foundation (NSF)
- Technology Council of Central Pennsylvania (TCCP)

HU's location in dynamic downtown Harrisburg connects people to a diverse and exciting community that is a wonderful place to call home. *Money Magazine* rates Harrisburg as one of the nation's top "Up and Coming Cities" and the area is ranked 12th in the "Best Places to Live" category by *Kiplinger's Personal Finance*. The Capital Region is home to over 600,000 residents, making it the 52nd largest statistical metropolitan area in the nation. Characterized by rolling mountains, the Susquehanna River, and rural areas meeting towns and cities, the Harrisburg region is a beautiful backdrop to Harrisburg University.

Harrisburg is also home to the Capitol of the Commonwealth of PA, and downtown Harrisburg is the center for commerce regionally with a thriving, bustling downtown community of which Harrisburg University takes its home in the center. Strawberry Square, a downtown shopping center connected to our campus and new building, is the student center. The Whitaker Center for Science and the Arts provides auditorium space and numerous cultural events. Restaurant Row and City Island provide

countless dining, shopping, sporting and socializing events. The scenic nature areas along the nearby Susquehanna River offer a relaxing escape from classes and are the site for local concerts, art festivals, and shows. It is also possible to tour Harrisburg's many historic museums, workout at the local fitness clubs, visit the theatres or take in a minor league baseball game.

From banking to the government to bookstores, e-commerce is an integral part of everyday life for public and private organizations, both large and small across the globe. Websites and the Internet are only part of this; e-commerce gives every business global exposure, cutting across all aspects of business as information technologies and the Internet connect businesses with customers, suppliers, employees, partners, and regulators.

Harrisburg University's e-Business and Management program was designed to meet the emerging needs of businesses in a rapidly changing, global market. We equip our graduates to work in a variety of sectors where an understanding of advanced information technologies integrated with managerial skills can help achieve competitive advantage. We connect students in this area with the professional field through partnerships with a diverse array of government and business entities that are leading the use of e-business technologies. For more information on this program, please visit: <http://www.harrisburgu.net/academics/undergrad/ebus/>.

About the Position

The Program Director will be responsible for providing complete oversight to the E-Business Area. This individual will be responsible for teaching specific courses within the program, developing the curriculum and the tools for measuring students' competencies, and recruiting and directing faculty within the area.

Additionally, he/she will need to be informed and able to incorporate new technologies and apply new concepts into the program as necessary and work closely with the university administration and the Information Technology group to ensure that the curriculum responds to market trends. The Program Director will also need to be able to forge relationships with corporate entities to help bridge the gap between the classroom and the business community. Successful candidates should be those who are willing to be a team player, to work at growing and advancing the mission of the university, and who is capable of encouraging teamwork and taking a collaborative approach with existing faculty and administration. This individual will also be responsible for making presentations outside of the classroom to peers, administration, and those outside of the university community. A successful candidate will also have demonstrated leadership within their previous roles.

How to Apply

Interested candidates should possess experience in teaching and instructional development, as well as prior corporate experience. A Bachelor's Degree in Computer Science, Information Technology, Engineering, Business Administration, Marketing, Economics, or related field is preferred. This individual should possess a minimum of a Master's Degree or MBA; however a PhD or terminal degree is preferred. Prior experience working and/or teaching econometric modeling, Internet-based marketing, and entrepreneurship would be highly desirable in this role.

Harrisburg University requires dedicated professionals who have the experience and desire to work in an active and collaborative environment that stresses high quality service delivery, entrepreneurial spirit, and close contact with a diverse group of internal and external constituents. HU is committed to the support and encouragement of a multicultural environment and seeks candidates who can make a positive contribution in this context.

Interested applicants should forward a cover letter, curriculum vitae, evidence of teaching excellence (such as course evaluations, sample syllabi, or other teaching material), a statement of teaching philosophy, and a summary of relevant corporate relations to the attention of:
