Arcus Ranks Among the Top Nationally

Arcus ranked 5th among best staffing firms to work for in the entire country

HARRISBURG, PA. (December 9, 2009) – Arcus, an international provider of talent management and consulting solutions, announced that it has been recognized by Staffing Industry Analysts as the #5 *best staffing firms to work for in the entire country.*

The application process was two-phased, and included the completion of a company survey of hiring practices, benefits and pay, as well as a survey of all internal employees. Arcus leadership learned the company had made it into the Top 10 in October and allowed *SI Review* magazine editors to interview and seek input from nearly a dozen of its employees on why they felt Arcus was deserving of this recognition. The exact ranking and a featured article is in this month's issue of the magazine.

"I am thrilled that my employees believe that Arcus is one of the best staffing firms to work for in the entire country," said R. Douglas Firestone, President and CEO of Arcus. "For them to provide their honest feedback and bestow this honor on the company is truly amazing. We work hard to create a culture that can't be matched anywhere else, and this award is evidence that we remain on the right track."

In addition to this recent recognition, Arcus has been named one of the Best Places to Work in Pennsylvania three years in a row, ranked on the Inc. 5000 three years in a row, listed as one of the top HR firms in the nation, named a Fifty Fastest Growing Company, honored as Business of the Year and awarded six awards for its marketing communications efforts by the American Staffing Association.

SI Review magazine provides coverage of the tools, techniques, and best practices that staffing, firm executives and owners need to successfully run their businesses in all areas of operation, including management, sales, administration and technology. *SI Review* reaches 15,000 executives and owners representing 10,000 staffing companies and covers topics ranging from staffing technology and effective sales strategies, to recruitment and retention and new products developed specifically for the staffing industry, among many others.
